SUMMARY

Driven **B. Tech student in Information Technology** with hands-on experience in web development technologies and database management. Eager to apply my technical skills and problem-solving abilities to support organizational goals while gaining valuable industry experience.

SKILLS

Programming Language: C, C++, Java, Python

Frontend Web Development: HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React JS

Database Language: SQL, PHP

Tool: Visual Studio Code

Open-Source Software Library: Learned basics of **TensorFlow** and **Teachable Machine** through a Udemy course.

[Completed **Facial Recognition course** in July 2024.]

Soft Skills: Problem-solving, Communication, Team Collaboration.

Projects

- **TO-DO List Application**
Developed a task management website supporting task categorization and complete CRUD functionality, combined with an integrated notepad for quick note-taking. *Technologies used: HTML, CSS, JavaScript.*
- **C-DAC Programmed Project**
Participated in a project on “**Capacity Building for Human Resource Development in UAS (Drone and related Technology)**” under the theme “**UAS and Its Applications.**”
- **Text Transformation Tools**
Developed and maintained a Text Transformer Tool for text transformations, **word/character count**, **reading time**, and **speech synthesis**, enhancing productivity. Optimized workflows for writers, students, and professionals, improving accessibility and user experience using *HTML, CSS, Tailwind CSS, and React JS.*
- **News Website Development**
Developed a dynamic news website integrating **APIs for real-time content**, focusing on seamless navigation, performance optimization, and a user-friendly interface. Utilized *HTML, CSS, Tailwind CSS, Bootstrap, and React JS* to ensure high performance, scalability, and responsiveness across all devices.
- **Suvidha Foundation Website (Frontend Project)**
Developed the responsive frontend of the Suvidha Foundation website using *HTML, CSS, and JavaScript*. Implemented user-friendly design.
- **Food Recipe Website**
Developed a responsive food recipe website using *HTML, CSS, JavaScript, and PHP* with interactive UI, recipe details, category filters, and a user feedback option.

WORK EXPERIENCE

Summer Training

LOGIXFIRM
